For IMMEDIATE RELEASE

One-Day Live Int'l Medical Device School for Startups with 15 global experts opens on Dec. 08, 2020

Seoul, Korea – MediHeroes announces that IMDS for Startups will be held virtual with a live presentation by the fifteen renowned global leaders from the MedTech industry on Nov 09, 2020. The IMDS program aims that global experts share their knowhows about MedTech industry with startups. It covers research, development, regulatory services, raising funds to commercialization. In 2019, “International Medical Device School (IMDS in short)” was launched in Singapore and will be held in China and Korea in 2020.

The first one-day International Medical Device School for Startups program opens online on Dec. 08, 2020. IMDS for Startups are co-organized by MediHeroes, Asia Regulatory Professionals Association (ARPA) and ARQon (Asia Regulatory and Quality Consultancy).

Some IMDS for Startups speakers are from MedTech Innovator (USA), LiquidSMARTS(USA), Nanyang Technological University(Singapore), Luctor Medical BV(The Netherlands), Korea University Hospital, etc. In addition, healthcare startup founders from Korea, China and France will share their success story with the fellow founder audience. This one-day IMDS is an “all-you-need-know” program for startups. Save one-day to lead the industry on Dec 08, 2020.

International Medical Device School for Startups

Date: Dec. 08 2020, 10am – 6pm (Live online)

Target: MedTech startups, students, M.Ds, investors, government officers, IT companies and manufacturers that want to enter into the healthcare industry

Registration Free (Pre-registration required)

How to Register: Go to the MediHeroes website (<https://www.mediheroes.com/imds>)

International Medical Device School will be run in a format of two-day course offline in 2021. IMDS plans to be held in Singapore, China, Taiwan, Switzerland, Germany, Japan, US, Thailand, the Middle East, Australia during 2021-2023. IMDS will serve as a global networking platform among its alumni worldwide.
